REQUEST FOR RECONSIDERATION OF PETITION UNDER 37 C.F.R. § 1.47(a)

Box DAC
Assistant Commissioner for Patents
Washington, D.C. 20231

Dear Sir:

In response to the Decision Refusing Status Under 37 CFR § 1.47(a) mailed June 30, 1998, Applicants hereby Request Reconsideration of Petition for Filing by Other than all Inventors Under 37 C.F.R. § 1.47(a), filed February 2, 1998. The Petition was dismissed for failing to establish that the non-signing inventors were presented with a copy of the application papers (specification, claims and drawings).

Subsequent to the filing of the Petition on February 2, 1998, previously non-signing inventors, Celso S. J. Bagaoisan and James Peacock, signed and returned Declarations and Powers of Attorney, copies of which are attached hereto as

RECEIVED
NOV 4 1998
OFFICE OF PETITIONS
DEPUTY A.C. PATENTS

Exhibits A and B, for filing in connection with the above-referenced reissue application,

Also transmitted herewith for filing in connection with the above-referenced reissue application are Declarations of Nita Miller and Mari Kleineidam, attached hereto as Exhibit C and D respectively, and copies of letters sent to the remaining non-signing inventor, John Shanahan. The Declaration of Nita Miller states that she sent John Shanahan a copy of the application papers (specification, claims and drawings) and a Declaration and Power of Attorney for his signature, by Federal Express on July 17, 1998, and that the non-signing inventor has failed to respond.

The Declaration of Mari Kleineidam states that she called John Shanahan's residence and sent John Shanahan a copy of the application papers and a Declaration and Power of Attorney for his signature, by Certified Mail return receipt requested, on September 21, 1998, and that the non-signing inventor has failed to respond. The letters sent to the non-signing inventors state that the inventors are being provided with a copy of the application papers and the Declaration and Power of Attorney.

Respectfully submitted,

By: 
Edward J. Lynch
